# User stories

## User story 1:

As a mechanic,

I want a list with all parts that are available to be picked up,

So that I know whether I can start working on a car.

## Wireframe:

SEARCH			
			
Stock	Stock	Stock	Stock
Stock	Stock	Stock	Stock
			
Stock	out of stock	out of stock	out of stock

## Acceptance criteria:

- a list of parts is shown
- a function to search parts
- parts that are out of stock are clearly labeled

## User story 2:

as a user,

I want to be able to log in,

so that I can use the application

## wireframe

A hand-drawn wireframe of a login form. It consists of a large rectangular box. At the top, centered, is the text "LOG IN". Below this, there are two input fields. The first input field is preceded by the label "USERNAME". The second input field is preceded by the label "PASSWORD". Both labels and input fields are centered horizontally within the box.

## acceptance criteria

- User is able to log in with the correct username and password
- The user only has to log in once every session
- After a successful login, the user is redirected to the home page

### User story 3

as a manager

I want to be able to order car parts

so that the stock isn't empty

### Wireframe

ORDERS					
PART	PART	PART	PART	PART	PART
- 1 +	- 1 +	- 1 +	- 1 +	- 1 +	- 1 +
PART	PART	PART	PART	PART	PART
- 1 +	- 1 +	- 1 +	- 1 +	- 1 +	- 1 +
HISTORY					
ORDER-319		25/09/2024			

### Acceptance criteria

- A list with the order history
- A list to see which parts are being ordered

## User story 4

as a salesman,

I want to be able to control the car's stock

so that i can remove a car that's been sold

## Wireframe

CAR STOCK					
CAR	CAR	CAR	CAR	CAR	CAR
REMOVE	REMOVE	REMOVE	REMOVE	REMOVE	REMOVE
CAR	CAR	CAR	CAR	CAR	CAR
REMOVE	REMOVE	REMOVE	REMOVE	REMOVE	REMOVE
+					
ADD CAR					

## Acceptance criteria

- Be able to add a car
- Be able to remove car
